BIOBRIQ™
FIREWOOD

The smart way to heat your home 

Made from 100% compressed Beechwood Sawdust
Weight estimate: approximately 10kgs

Lighting instructions:
Bio-Briqs are easy to light using firelighters or newspaper and is meant as a replacement for firewood or can be mixed with traditional firewood.

Easy Storage:
Bio-Briqs are uniform in size, taking up less than a quarter the space of firewood.

Keep dry:
As compressed, dry wood, exposure to water greatly diminishes the efficacy of Bio-Briqs. They should be stored in a dry area, preferably inside the home, garage or a shed.
